Software engineer

Отвечал за создание внутреннего сервиса компании для создания структуры сложных устройств, их учёта, а также их компонентов, и возможности создания заявок о проблемах этих устройств.

Was responsible for the creation of the company's internal service for creating the structure of complex devices, their accounting, as well as their components, and the possibility of creating requests of these devices problems.

Education

Bachelor

2021

ИТМО University (Санкт-Петербургский национальный исследовательский университет информационных технологий, механики и оптики, Санкт-Петербург)

Faculty of Secure Information Technologies - 10.03.01 Information Security Technologies

(Факультет информационной безопасности и компьютерных технологий - 10.03.01 Технологии защиты информации)

ITMO University (Санкт-Петербургский национальный исследовательский университет информационных технологий, механики и оптики, Санкт-Петербург)

Faculty of Secondary Vocational Education - 09.02.03 Programming In Computer Systems

(Факультет среднего профессионального образования, 09.02.03 - Программирование в компьютерных системах)

Key skills

Languages	Russian — Native English — C1 — Advanced Japanese — B1 — Intermediate
Skills	Diligence

Driving experience

Driver's license category B

Additional information

Last years I was studying without ability to work. After graduating I have worked at company System Technologies (<https://systemt.ru/>) for three months.

Studied the basics of programming in programming languages C and C++. Have experience with PHP, JavaScript, JQuery, HTML, CSS, MySQL, PostgreSQL and Assembler (nasm). Currently I use Python as my main programming language. Have experience in web-development (full-stack). Also, have knowledge of OOP, neural-networks and Information Security. Worked with Flask, Django, Celery, Docker, PyQt, numpy and pandas.

In 2017, took part in Young Scientist Congress (KMY) at ITMO University with the thesis «Implementation of cloud storage for images with a pattern recognition system based on the neural network».

In 2021, took part in X Young Scientist Congress (KMY) at ITMO University with the thesis «Implementation of collective digital signature algorithm for an electronic document management system without the usage of certification centers».

The video shows one of the interface applications that I did in my free time using PyQt:
